Producer Overview	<p>From Lombardo's premises in Marsala, a short avenue of squat palm trees opens out onto a fabulous view of the open blue sea and Marsala's lighthouse. In fact the company's history is intertwined with Marsala's maritime heritage; the founder, Giuseppe Lombardo, being a shipbuilder who saw an opportunity to export wines on his ships in 1881. The family still runs the firm today. Ermalinda Lombardo is helped by her 75 year-old father whose office is stuffed with old memorabilia about the family firm and of course there isn't a computer in sight. Their winemaker, Giuseppe Aripoli, makes a staggering array of Marsalas and sweet wines of all sorts of age and persuasion! Rambling warehouses contain endless wooden barrels containing Marsalas at various stages of maturation. Read more online</p>
