## Specification

**Vinification** The grapes are harvested by hand and treated with great care. After gentle destemming, they are softly pressed. At this point, the must undergoes cold static sedimentation for 24-48 hours before being racked off for fermentation. Fermentation takes place at a controlled temperature of between 17 and 19 degrees for approximately 10-12 days. After fermentation the wine is racked off and remains in stainless steel for a few months until bottling.
